

# Thank you

FOR YOUR BUSINESS

## THANKSGIVING

Thanksgiving is the time of year that we celebrate what makes us well, grateful. We probably all want very different things in our lives and what we want for our businesses may be dependent on the region, time of year or inventory. Regardless, this is a time of year that most businesses close early today and all day tomorrow to allow time spent away from work. A collective break to enjoy for everyone.

## IS FOR EVERYONE

That is for everyone but business owners, contractors, retail and service personnel. Pretty much everyone in our industry that cover a 24 hour work schedule. I used to work in the entertainment industry where the general manager used to order a large Thanksgiving meal for the evening staff knowing they did not get to go home when we did.

This small gesture was so well received by everyone there!

## PLEASE ENJOY

Whether you are spending time with your family, friends (family?) or coworkers, CH Capital Partners, LLC want you to know that we value our relationship and working with you. We are thinking of you during this season and hope you have a wonderful Thanksgiving!
